

# My Score saddle chair: optimum ease of operation

**1** The lumbar support is anatomically shaped, providing good support for your lower back without limiting shoulder freedom.

**2** Ergonomically shaped saddle seat tilts the pelvis to improve spinal posture.

**3** To adjust the seat angle of your saddle seat correctly, pull the lever up and simultaneously lean slightly forward. The saddle seat tilts and provides a sound and healthy back posture.

**4** To adjust your saddle seat at the correct height, pull up the gaslift lever. Your saddle seat has the correct height if your feet rest on the ground and your knees are slightly bent.

**5** Choose a Score 'Balance' mechanism for dynamic sitting. The seat 'moves' 360° along and ensures that your pelvis and back posture remain optimally positioned.

**6** Standard provided with a ø 54 cm aluminium base and large swivel castors for optimal mobility.

# Saddle chairs

## Score Balance Lumbar support

Find your relax moment during active seating? Choose a Score Balance Amazone/Jumper saddle chair with lumbar support.

The anatomically shaped seat automatically, tilts your pelvis, so you adapt a natural and relaxed position.

The Balance mechanism lets you in a way "balancing" to get an active sitting position. This stimulates your blood circulation. Moreover, you train your back and abdominal muscles.

An ergonomic workout while sitting. The moving lumbar support provides light support for your lower back for a moment of relaxation during your daily work.

### Perfect fit; Available in two sizes

Score saddle chairs come in two different seat shapes: the Jumper for a wider seat and the Amazone for a narrower seat.

### Spirit Amazone PU

Polyurethane is suitable for heavy duty industrial working environments. It is easily cleanable and resistant to various chemical substances. Also available with a lumbar support.

### Armrests

Armrests offer extra support to reduce neck and shoulder complaints.

### Lumbar support

For extra support. The lumbar support has a compact design to ensure that freedom of movement is not impaired. The lumbar support is adjustable in both its height and angle.

### Jolly

Saddle chair with the seat in the form of a bicycle saddle. Excellent mobile sit-stand stool, particularly suitable for working areas with limited leg room.

## Score Balance healthy active sitting

Our unique adjustable Balance mechanism for saddle chairs, stimulates healthy and active seating.

The constant movement of the Balance-system improves the core abdominal muscles, reducing back pain and sitting fatigue.

Sit comfortably by adjusting the Balance level to your personal preference. Increase or reduce the Balance level by turning the Balance ring underneath the saddle chair.

The Score Jumper or Amazone saddle chair fitted with our Balance mechanism is a unique seating solution and often used to promote a better posture.

### 360° Support

360° rotatable armrest/backrest. Easy to move out of the way. For supporting one or both arms.

## Handsfree height adjustment

The saddle chairs can be provided with foot controlled height adjustment. Very useful if you would like both hands to be free for your work and/or should be kept sterile.

### Amazone/Jumper ESD or Cleanroom

An ESD safe saddle chair features conductive components and an upholstery that can be fitted with a resistance of 1Mohm for a controlled discharge. Score ESD products meet the standard IEC 61340-5-1. The cleanroom version received an outstanding Fraunhofer Cleanroom ISO class 3 certificate.

## Maximum hygiene

For workplaces where hygiene is very important, you can choose for PUxx; a anti-bacterial seamless upholstery.

## About Score

We believe we can make people live healthier. We do this by improving workplace situations so that people perform their work in a healthy and pleasant way.

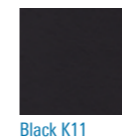

At Score, we develop and produce ergonomic work or workplace chairs and related accessories. We co-operate with our partners and we are proud to have helped hundreds of thousands of people around the world with a good seating solution.

Score is a Dutch company. From the drawing table to production, we do everything ourselves. Score products are sold in more than 40 countries worldwide through a network of carefully selected dealers and distributors.

It is our biggest motivation during the development process to allow you to sit healthy and comfortable during your work.

Whenever you choose a Score saddle chair, you choose a high-quality seating solution, with very good ergonomic features.

### Leatherette
