- TA iQ MWD is designed with a unique sprung suspension that follows the ground by unevenness and obstacles.

In addition, the small castor wheel mounted in a rack of gas springs and adjustable spiral springs which gives wonderfully soft suspension and calm driving over bumps

- TA iQ MWD can be supplied with a color display control box with clear images that makes it easy to overview the menu, or with a control box without display with symbols for electrical functions.

TA iQ MWD - is a mid wheel drive wheel chair that turns and maneuvers incredibly easy, and gives a very good suspension of everyday life.

- TA iQ MWD can be supplied with Varilite seat system containing many different back and cushion types in various sizes. Can also be fitted with all most known seating systems.

The base and back bracket systems can be adjusted in width so that it is not necessary to change for replacement of the back or cushion or by recycling the wheelchair.

*A life in motion!*
