

HeartSave Y | YA

THE NEXT GENERATION
HEARTSAVE SERIES

The Next Generation HeartSave series

Intelligent Connector

HeartSave Y I YA - The next Generation HeartSave series

For less trained first aiders, the operation of an AED can be very complex. **HeartSave Y I YA** supports the first aider through clear visual and simple acoustic instructions and an automated process of resuscitation measures.

This promotes user awareness and guarantees reliable use of the **HeartSave Y I YA**.

Simplified Status Monitor

Simple and reliable

Through the simplified status monitor, the status of the **HeartSave Y I YA** can be continuously reviewed. This ensures that the **HeartSave Y I YA** is ready for use.

With a daily self-test, the device checks its own and the functionality of the accessories. It detects the status of the electrodes and battery and inform you about any errors through the integrated monitor.

Integrated resuscitation-kit

Supportive and protective

To help first aiders during this emergency situation the **HeartSave Y I YA** provides an resuscitation-kit at the back.

The resuscitation-kit contains:

- ▶ a scissor
- ▶ razor
- ▶ respiration cloth
- ▶ disposable gloves

EFFECTIVE SHOCK DELIVERY

Depending on need, up to 360 J can be delivered for an effective treatment.

IP55 STANDARD

Can also be used in challenging environmental conditions.

ADAPTIVE VOLUME CONTROL

The **HeartSave Y I YA** detects the ambient volume and automatically adjusts the volume of voice instructions.

6 YEARS OF WARRANTY

The **HeartSave Y I YA** comes with a six years warranty.

INTELLIGENT CONNECTOR SYSTEM

The functionality of the electrodes can be monitored through the intelligent connector system.

UNIVERSAL ELECTRODES

The electrodes can be used for adults and children.

AVAILABILITY OF MODELS

Depending on preference, the **HeartSave Y I YA** is available as a semi-automatic or fully-automatic version (depending on preferences).

MULTILINGUALITY

The **HeartSave Y I YA** allows you to switch between up to four preset languages.
