

# EMERGO™

Multipurpose patient trolley

Comfort and reliability  
in acute care and  
recovery

PRIMARY CARE & ER

## Emergo patient trolley

The classic Emergo patient trolley is available in a range of models with either 2 or 3-sectional mattress base. The safe and sturdy construction makes it ideal for heavy use. The versatile range of options and adjustments ensures comfort, safety and reliability in various situations such as emergency care and ICU, patient transportation, recovery and minor procedures. Designed and manufactured in Finland, Emergo is a long lasting, good-value patient trolley for any clinic or hospital.

### Cost-efficient and long-lasting

- Modular structure, can easily be equipped according to your needs
- A wide range of accessories available
- Sturdy construction, materials resistant to wear and tear

### Comfort and safety for patients

- Comfortable thanks to adjustable mattress base
- Can be lowered to an adequate height for improved patient comfort
- Optional storage compartments to keep the patient's personal items close at hand
- Side rails enhance patient safety
- Also suitable for heavy patients

### Ergonomic and convenient for health care staff

- Light, gas spring-assisted adjustments
- Mattress base rises to an ergonomic working height
- Side rails are adjustable with a single hand
- Easy to clean, also the X-ray mattress base
- Great to manoeuvre even in tight spaces, fifth wheel improves mobility even further

## Factory-assembled options and accessories

### Castors

1. Design Ø 150 or 200 mm, antistatic
2. PJP Ø 150 mm

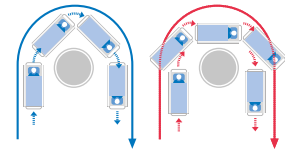

Fixed, without castors (eg. for ships).

X-ray compatible mattress base, easy to clean  
Available in models 6270 and 6280

5<sup>th</sup> wheel for improved mobility

On the left is shown how the turning radius decreases with the fifth wheel. On the right the same situation without the fifth wheel.

## Storage

ABS storage box  
100006620 large
