

### Overview:

Designed for busy renal units, this chair features vertical lifting to minimise space requirements and provides fully electric profiling and patient positioning. The electric operation controls height, Trendelenburg tilt, backrest, foot section, foot rest, CPR and auto-return to chair position. All these benefits provide ideal solutions for handling high risk patients for procedures such as dialysis, periton dialysis, plasmapheresis diagnosis, oncology and chemotherapy.

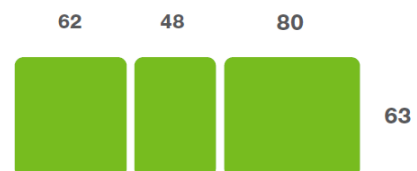

### Benefits

- Lifetime frame & 5 year parts guarantee - see website for further details
- Vertical lifting to minimise space requirements
- Electric operation of all chair positions for height, backrest, foot section, foot support, Trendelenburg tilt to -20°, auto-return to chair position
- Electric push button CPR facility and foot operated manual CPR operation
- Battery back-up to provide functional operation during mains power failure
- Pressure relieving upholstery with anti-microbial 2-way stretch vinyl
- Safe working load and lifting capacity of 250kg (550lb / 39 stone)
- Padded armrests with auto-adjustment to seated and semi-seated positions
- Matching head cushion and knee bolster for patient comfort
- Large 125mm twin castors with central locking and steering facility
- Low patient transfer height of 52cm (20")

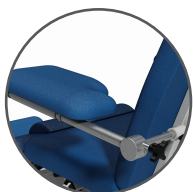

### Overall Dimensions

Length: 193cm (77") approx  
 Width: 79cm (31") approx  
 Height: 52cm - 101cm approx  
 (20" - 40") approx

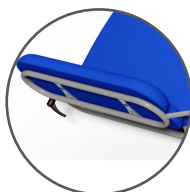

### Upholstery Dimensions

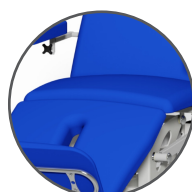

### Options & Accessories:

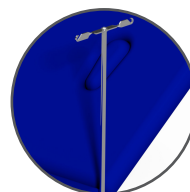

Lateral Arm Adjustment

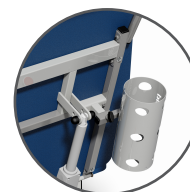

Manual Footboard
